Plantation shutters

/ shutters

Plantation, or louvered shutters are the current trend in window furnishings.

Plantation shutters fitted on the inside of your home provide a beautiful designer feature combining stylish aesthetics with improved energy saving benefits.

Colour options

Our collection of premium PVC (fauxwood) plantation shutters are available in snow white.

Features & benefits

- Durable material that can be used in both wet and dry area's of the home.
- High grade polymer (fauxwood) with aluminium core which ensures no twisting, warping, cracking, peeling or deterioration and a longer product life than traditional shutter types.
- High grade stainless steel hardware for extra strength and product durability.
- 89mm Blades available in snow white.
- Unique 180° blade rotation giving you control over the blade position, light entering the space, shading and privacy.
- An extensive range of mounting options and configurations to match your existing window type.
- Termite, insect and corrosion resistant, ensuring a longer life than traditional timber shutters.
