Vertical Blinds

/ indoor blinds

Vertical blinds are a cost-effective window covering that are a functional addition to any home.

European designed, the Deco Plus Vertical Blind System has a dual wand control to operate the blinds, combining modern styling with practical functionality. In addition, it provides peace of mind with its unique child safety operation.

The sleek stylish wand is available in smooth anodised grey finish or pure powder coated smooth white finish. The dual command wand operation provides a safe, easy and effective way to operate your vertical blinds.

The optional removal of all operating cords and chains means a safer blind and ensures compliance with current child safety legislation.

KEY FEATURES & BENEFITS

- Wide spans achievable with a maximum width of 6m
- Improved light and privacy control
